

Thanks for everything, professor. I truly enjoyed this class. I will never forget every moment of our class. We believe that You are tender-hearted, and that deserve to be respected by all of us. From this class, I could get a glimpse of how this world goes on, and have a good attitude toward understanding other people. I can swear that I will develop these lessons continuously. Moreover, your teaching method was very impressive to all of us. However, you know we all are undergraduate students, so that we do have so much classes during every semester: Seven or eight classes. If I had more time to spend this class, I dared to say that I could make fantastic presentations. Anyway, I can say I did my best. I am unwilling to leave our class.
